Dear Store Manager,

I would like to request that you begin selling Freshpet—the only brand of fresh, real food for pets.

Fresh Real Foods
& Treats for Pets

Made with Natural
Simple Ingredients

Kept Refrigerated
Like Real Food

All Freshpet foods are made of natural simple ingredients without the use of any by-products, fillers, wheat or corn. Each meal starts with high-quality proteins such as chicken, beef, or fish and vitamin-rich vegetables, such as spinach and carrots. The ingredients are gently cooked to lock in vitamins and nutrients without the use of artificial preservatives. All Freshpet products, like fresh food for humans, must be refrigerated.
